Texas College of Management & IT is where I attend classes. motivated React intern with a solid background in web development. demonstrated capacity to successfully participate to group tasks. Looking for a chance to use and improve my React skills in a fast-paced professional setting. Blog App I used the MERN stack to construct this blog application. To construct this app, I utilised the following packages. I have utilised Axios, React Hot Toast, React Redux, Material UI, Redux Toolkit, and React Router DOM on the front end. I have utilised Express, Mongoose, Nodemon, Colours, Cors, Bcryptjs, Body Parser, and Dotenv on the back end. The blog at https://github.com/prabalbhandary

Kathmandu Institution of Science & Technology   May, 2018 - Jan, 2020

SEE   Kathmandu

Miniland English High School   Apr, 2008 - Sep, 2018

PROJECTS

Blog App

I have created this Blog App using the MERN stack. I have used the following packages to create this app. In the front-end, I have used Material UI, Redux Toolkit, Material UI Icons, Axios, React Hot Toast, React Redux, and React Router DOM. In the back-end, I have used Bcryptjs, Body Parser, Colors, Cors, Dotenv, Express, Mongoose, Morgan, and Nodemon. https://github.com/prabalbhandary/blog

Movie App

I have made this with Next JS
https://movie-app-two-drab-68.vercel.app/

TRAINING/CERTIFICATIONS

MERN Stack   2024

Evolve IT Hub Pvt Ltd

I have completed learning this training session of three months. Here I am learning about HTML5, CSS3, JavaScript, Express JS, MongoDB, React JS, Node JS, APIs, and Node env variables.
